

*Fifty Years of Dedication and Achievements –  
Success Story of the HKBU Faculty of Science*

My heartfelt congratulations to all our colleagues, students and alumni of the Faculty of Science on your golden jubilee! The University takes great pride in the achievements of the Faculty as the heart of innovation and growth.

Since its inception in 1961, the Faculty has demonstrated steadfast commitment to teaching and research/scholarship. It has performed a key role in advancing the development of science education and the nurturing of young talents for the Hong Kong community and Mainland China. Noteworthy is the Faculty's distinctive track record of producing gifted and inspiring leaders for the HKBU's senior management.

The Faculty's hard-earned reputation is attributed to its success in building up a strong research culture and in fostering close collaboration networks with well-renowned scholars and universities, both regionally and overseas. The recognition of the Faculty's research strengths and achievements is well attested by the University's 111th position in the Times Higher Education World University Rankings 2010.

On this commemorative occasion of the golden jubilee, may I wish the Faculty of Science every success in all its endeavours for many years to come!

Franklin T. Luk  
Vice-President (Academic)
